

July 20st, 2010

Dear Mr. Max Urtusuastegui:

Thank you for your interest and working with our company Clean Technology Solutions, Inc. the official representative of Pulstar products in Latin America and the Caribbean. As per your request, I hereby verify that your company Fuel Flex Mexico, is the only and direct official dealer in Mexico for our products.

These spark plugs are specially used for ethanol used in all its % of combination like E10, E50, E85 or E100. Pursuant to our conversation I would like to offer the following information:

Products :

- 1) Complete line of Pulstar Iridium: ad1i, be1i, cb1i, dg1i, he1i
- 2) The 5 SKUs of Pulstar plugs support nearly 90% of the cars in the market today.

Benefits

- 1) Fuel economy, lower emissions and improved horse power.
- 2) Substantial performance improvement compared with Denso or NGK spark plugs as represented by various third party tests.

Technology

Our unique pulse technology capable of producing 20,000 higher ignition power than regular spark plugs. Pulstar plugs use a capacitor that is able to release a 1 MegaWatts of power in every pulse (compared with regular plugs which release 50 Watts of power.

Mr. Urtusuastegui, I hope this letter will serve to represent our products to any person or company where we express our support to you and fuelflexmexico.

Thank you for your interest in our products. I would be happy to provide any additional questions you may have.

Sincerely,

A handwritten signature in black ink, appearing to read 'L. Luyo'.

Commercial Director
